

A prize draw everyone can check for themselves.

How to build an income promoting a provably fair system—starting before you spend a dollar.

Traditional prize pools ask players to trust a black box.

Provable mechanics replace "trust us" with "verify it."

Fair Play Rule

The automated flow from ticket purchase to instant payout

Irrefutable fairness is the ultimate conversion engine.

Player Profile

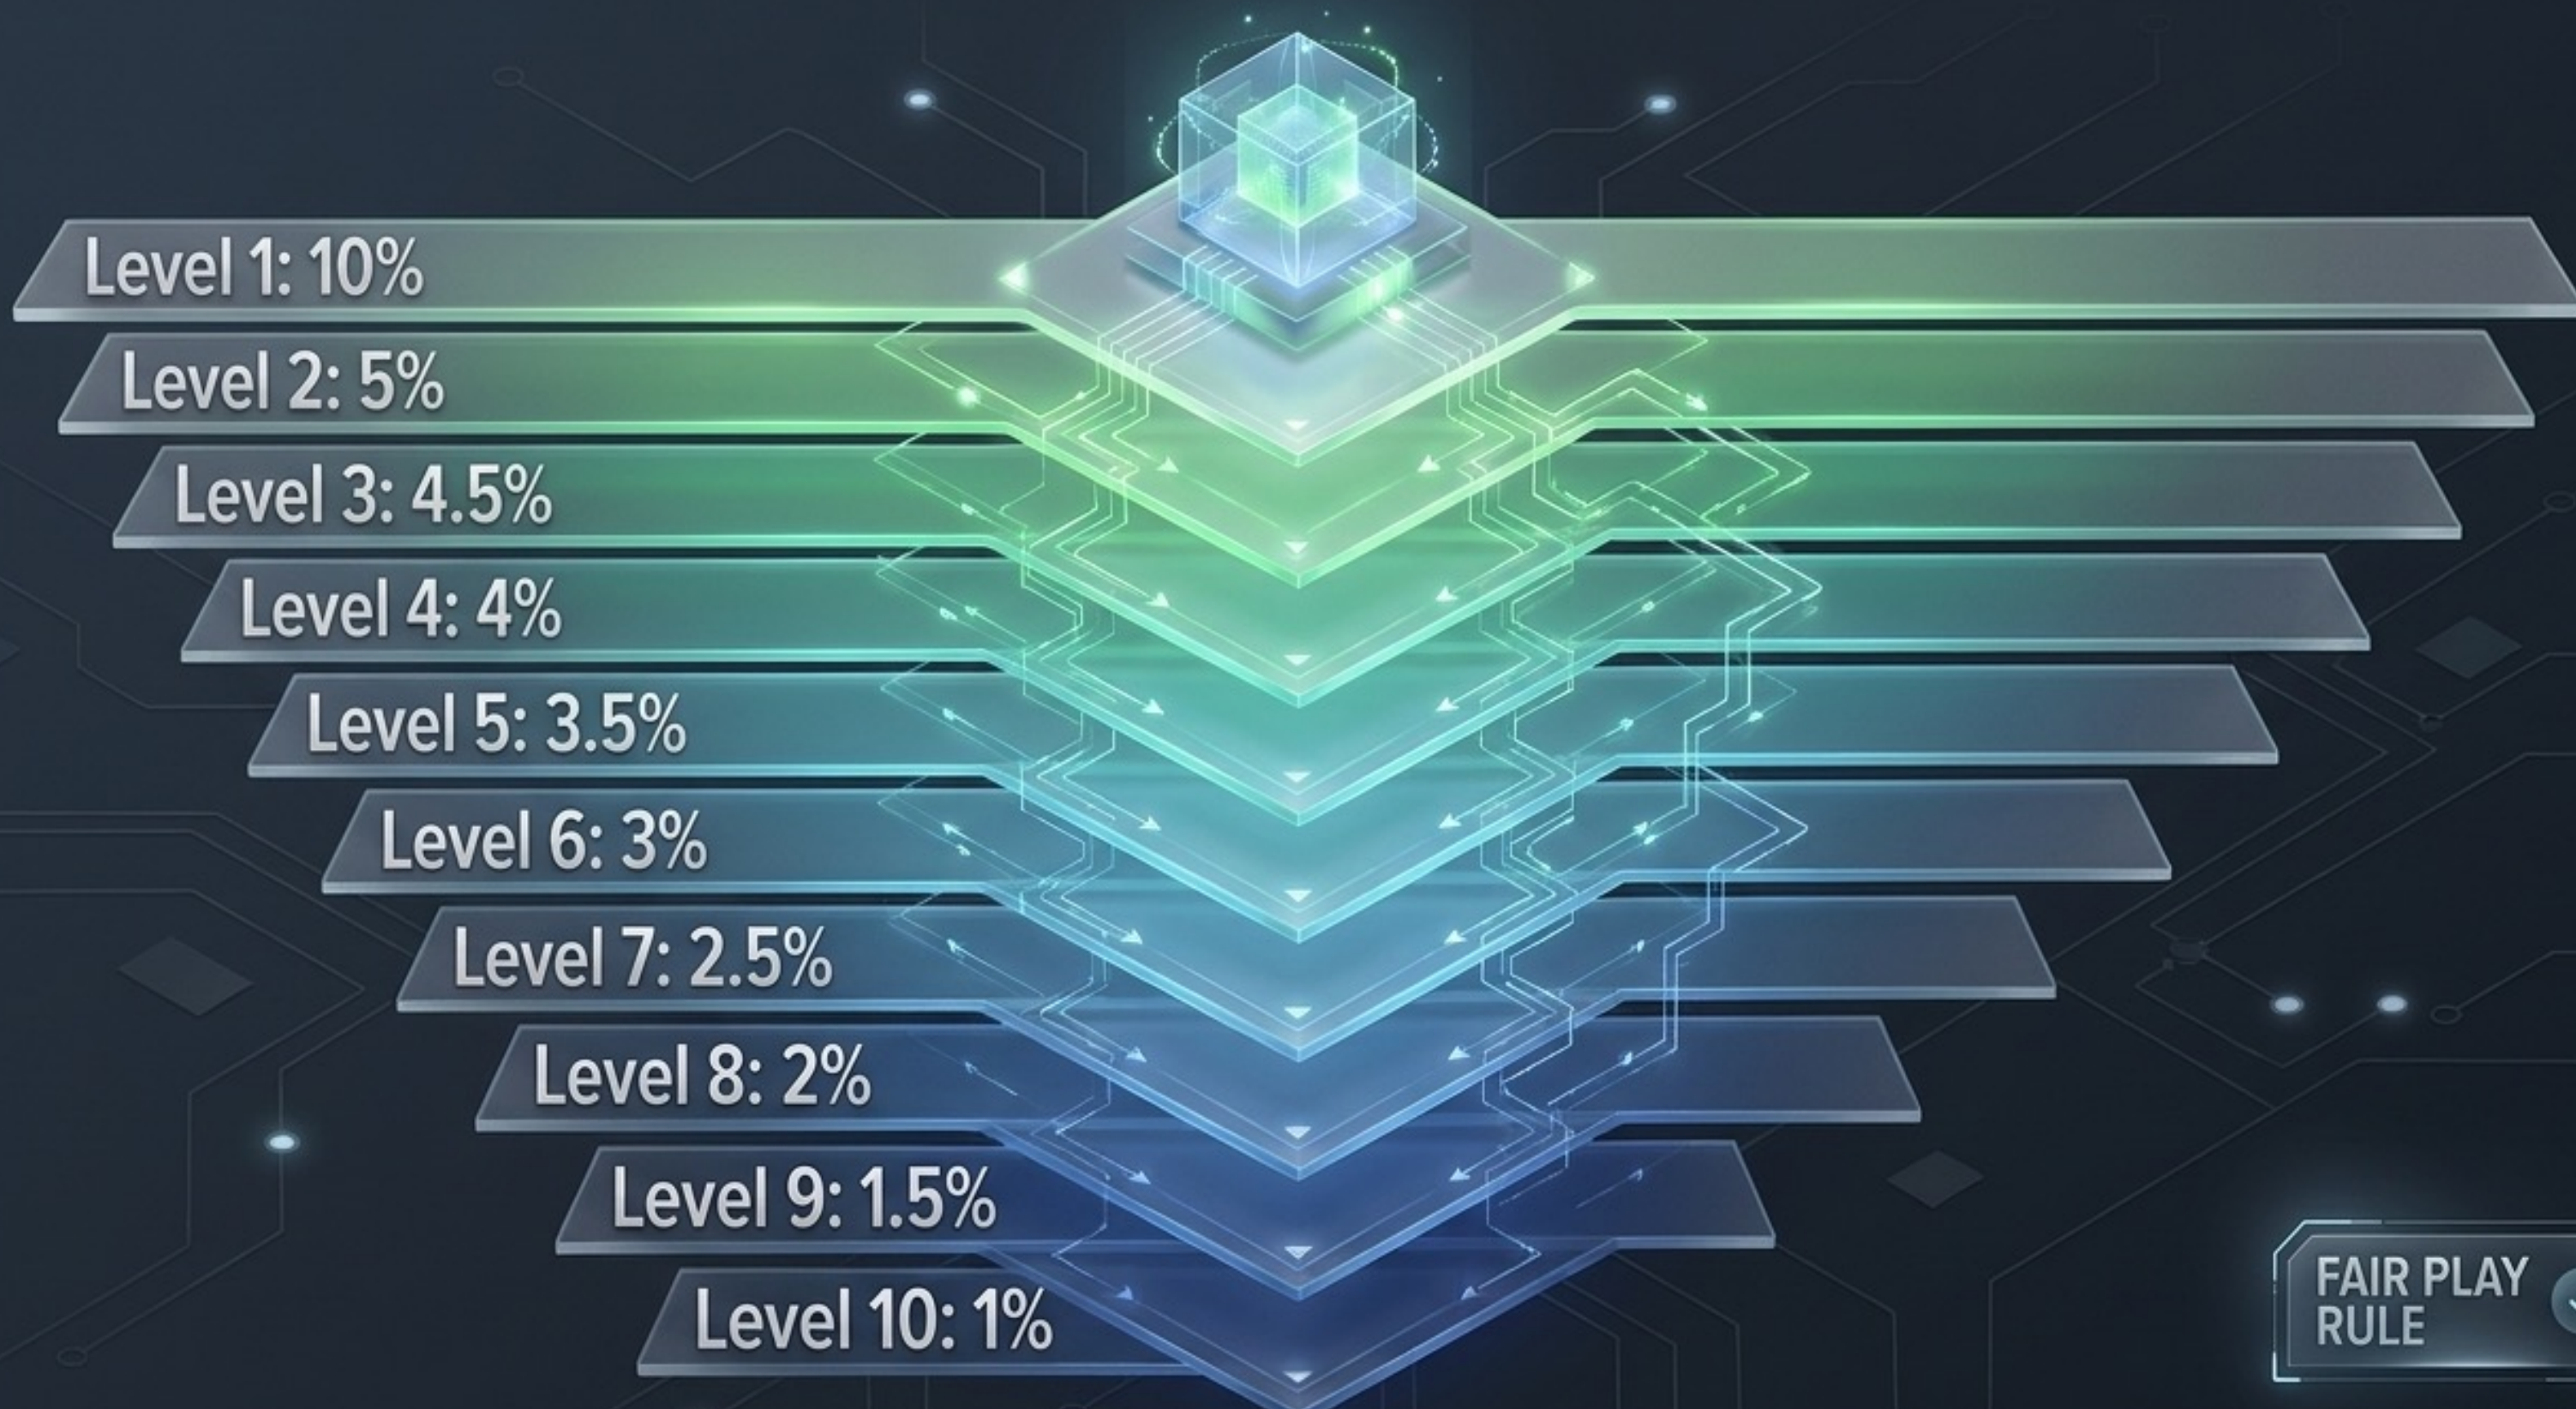

**You don't have to sell trust.
The blockchain does it for you.**
By completely eliminating player doubt,
affiliate conversion rates scale naturally.

Affiliate Profile

Protocol mathematically routes 37% of revenue directly to the invite network, 3% to promotions, and 10% to running costs.

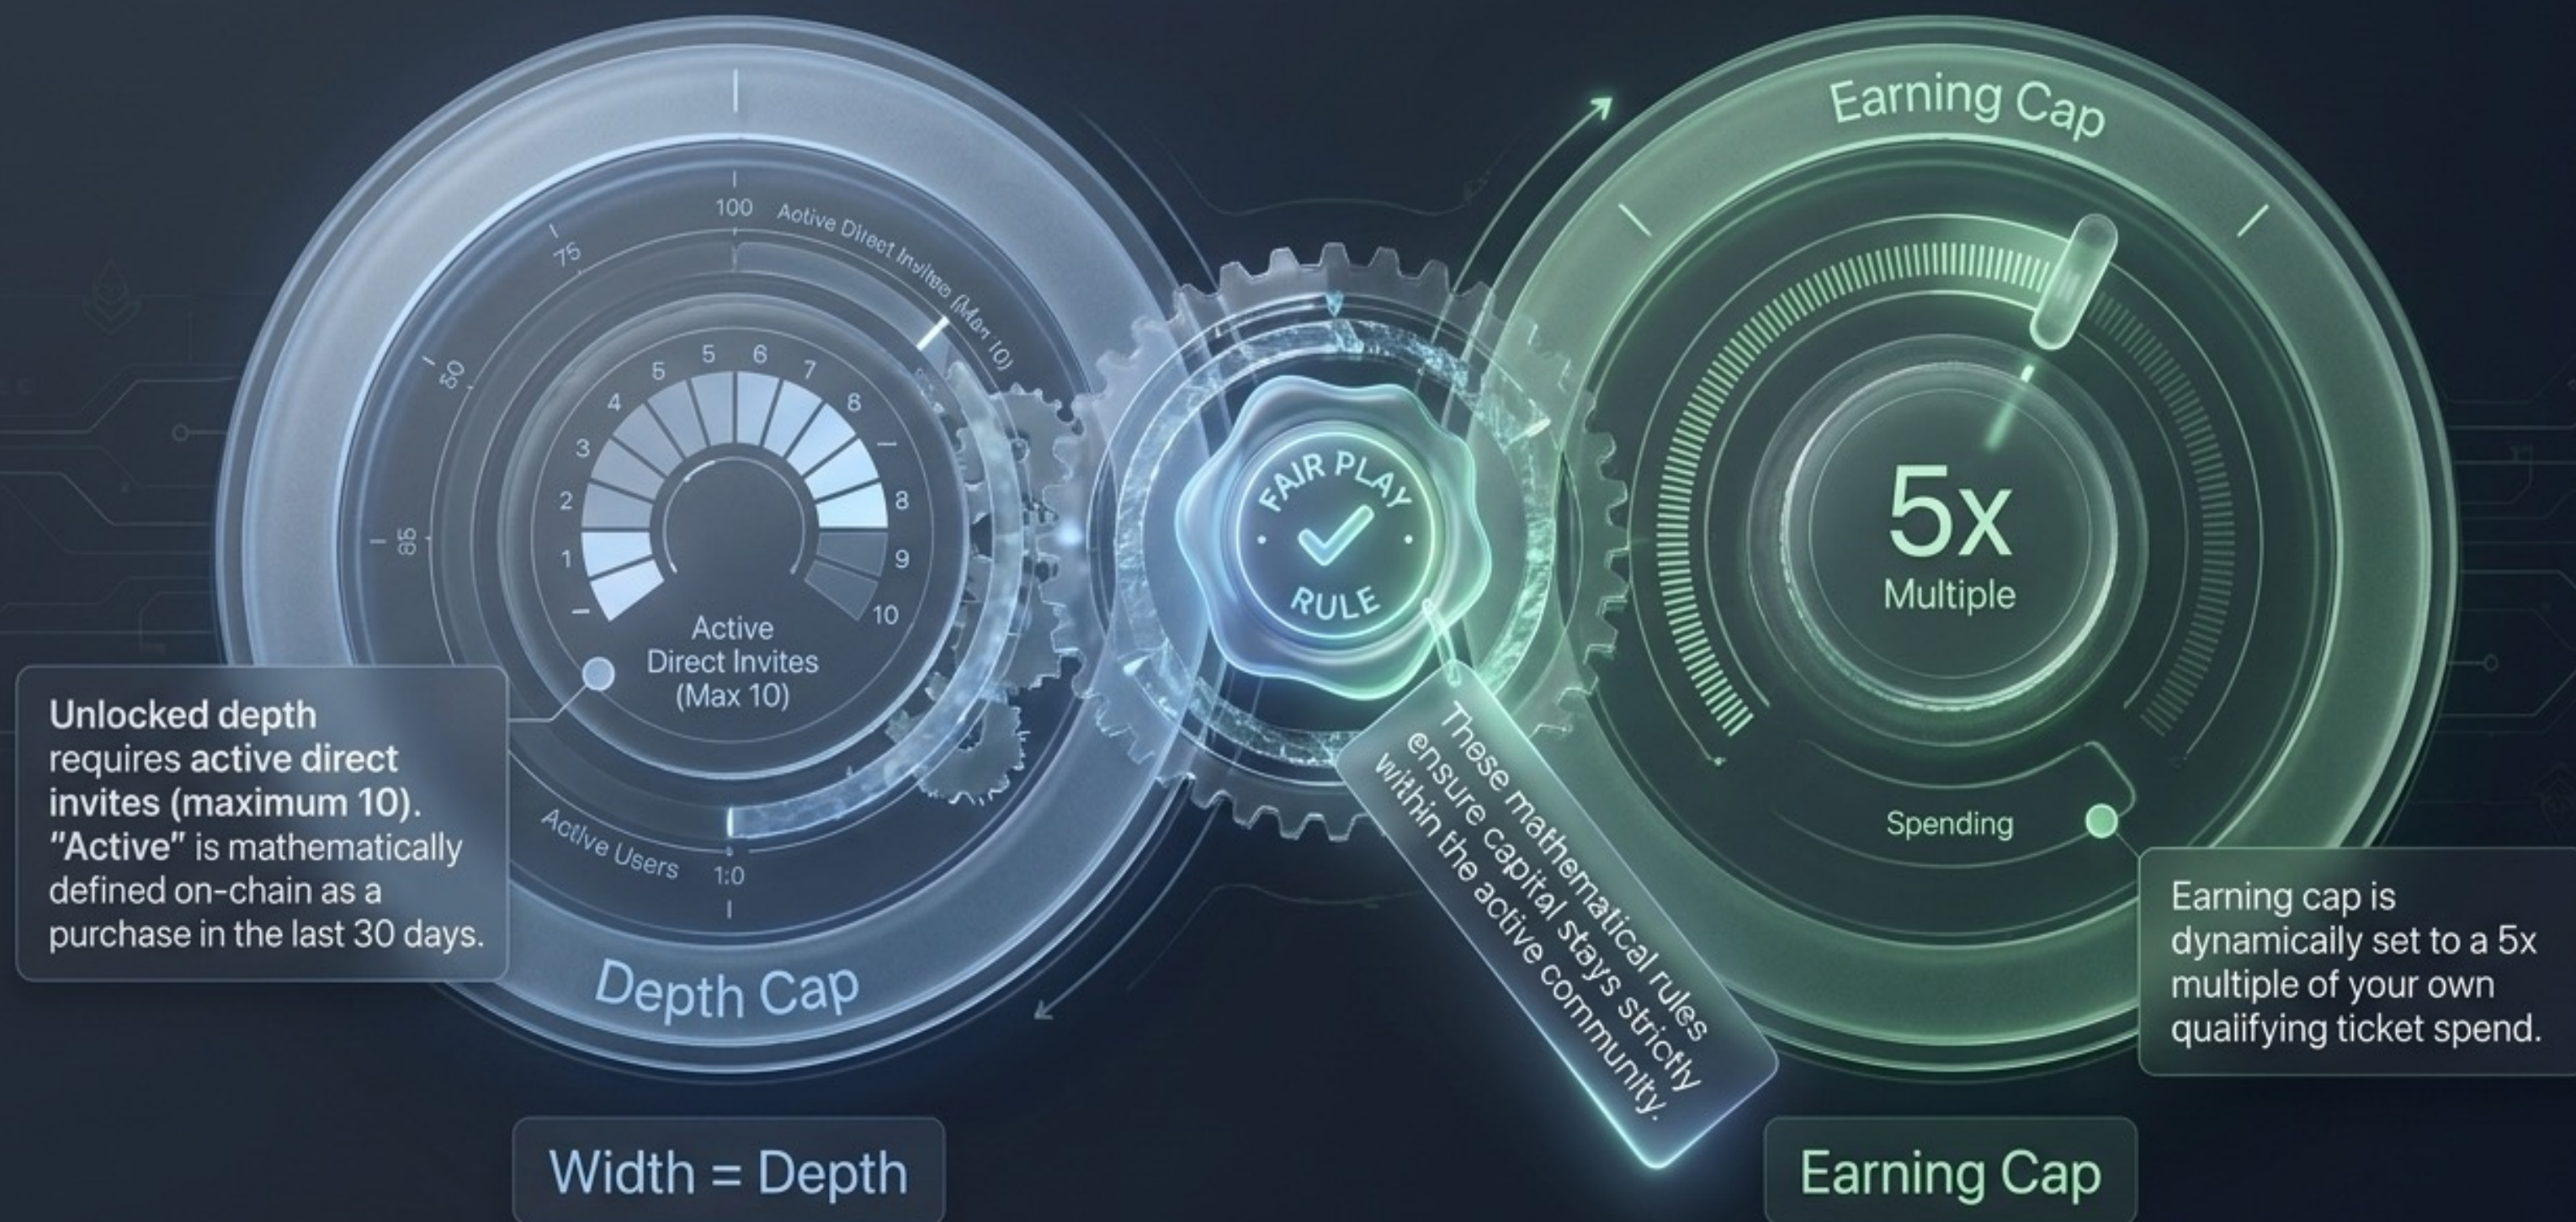

The protocol automatically routes 37% of revenue to the invite network.

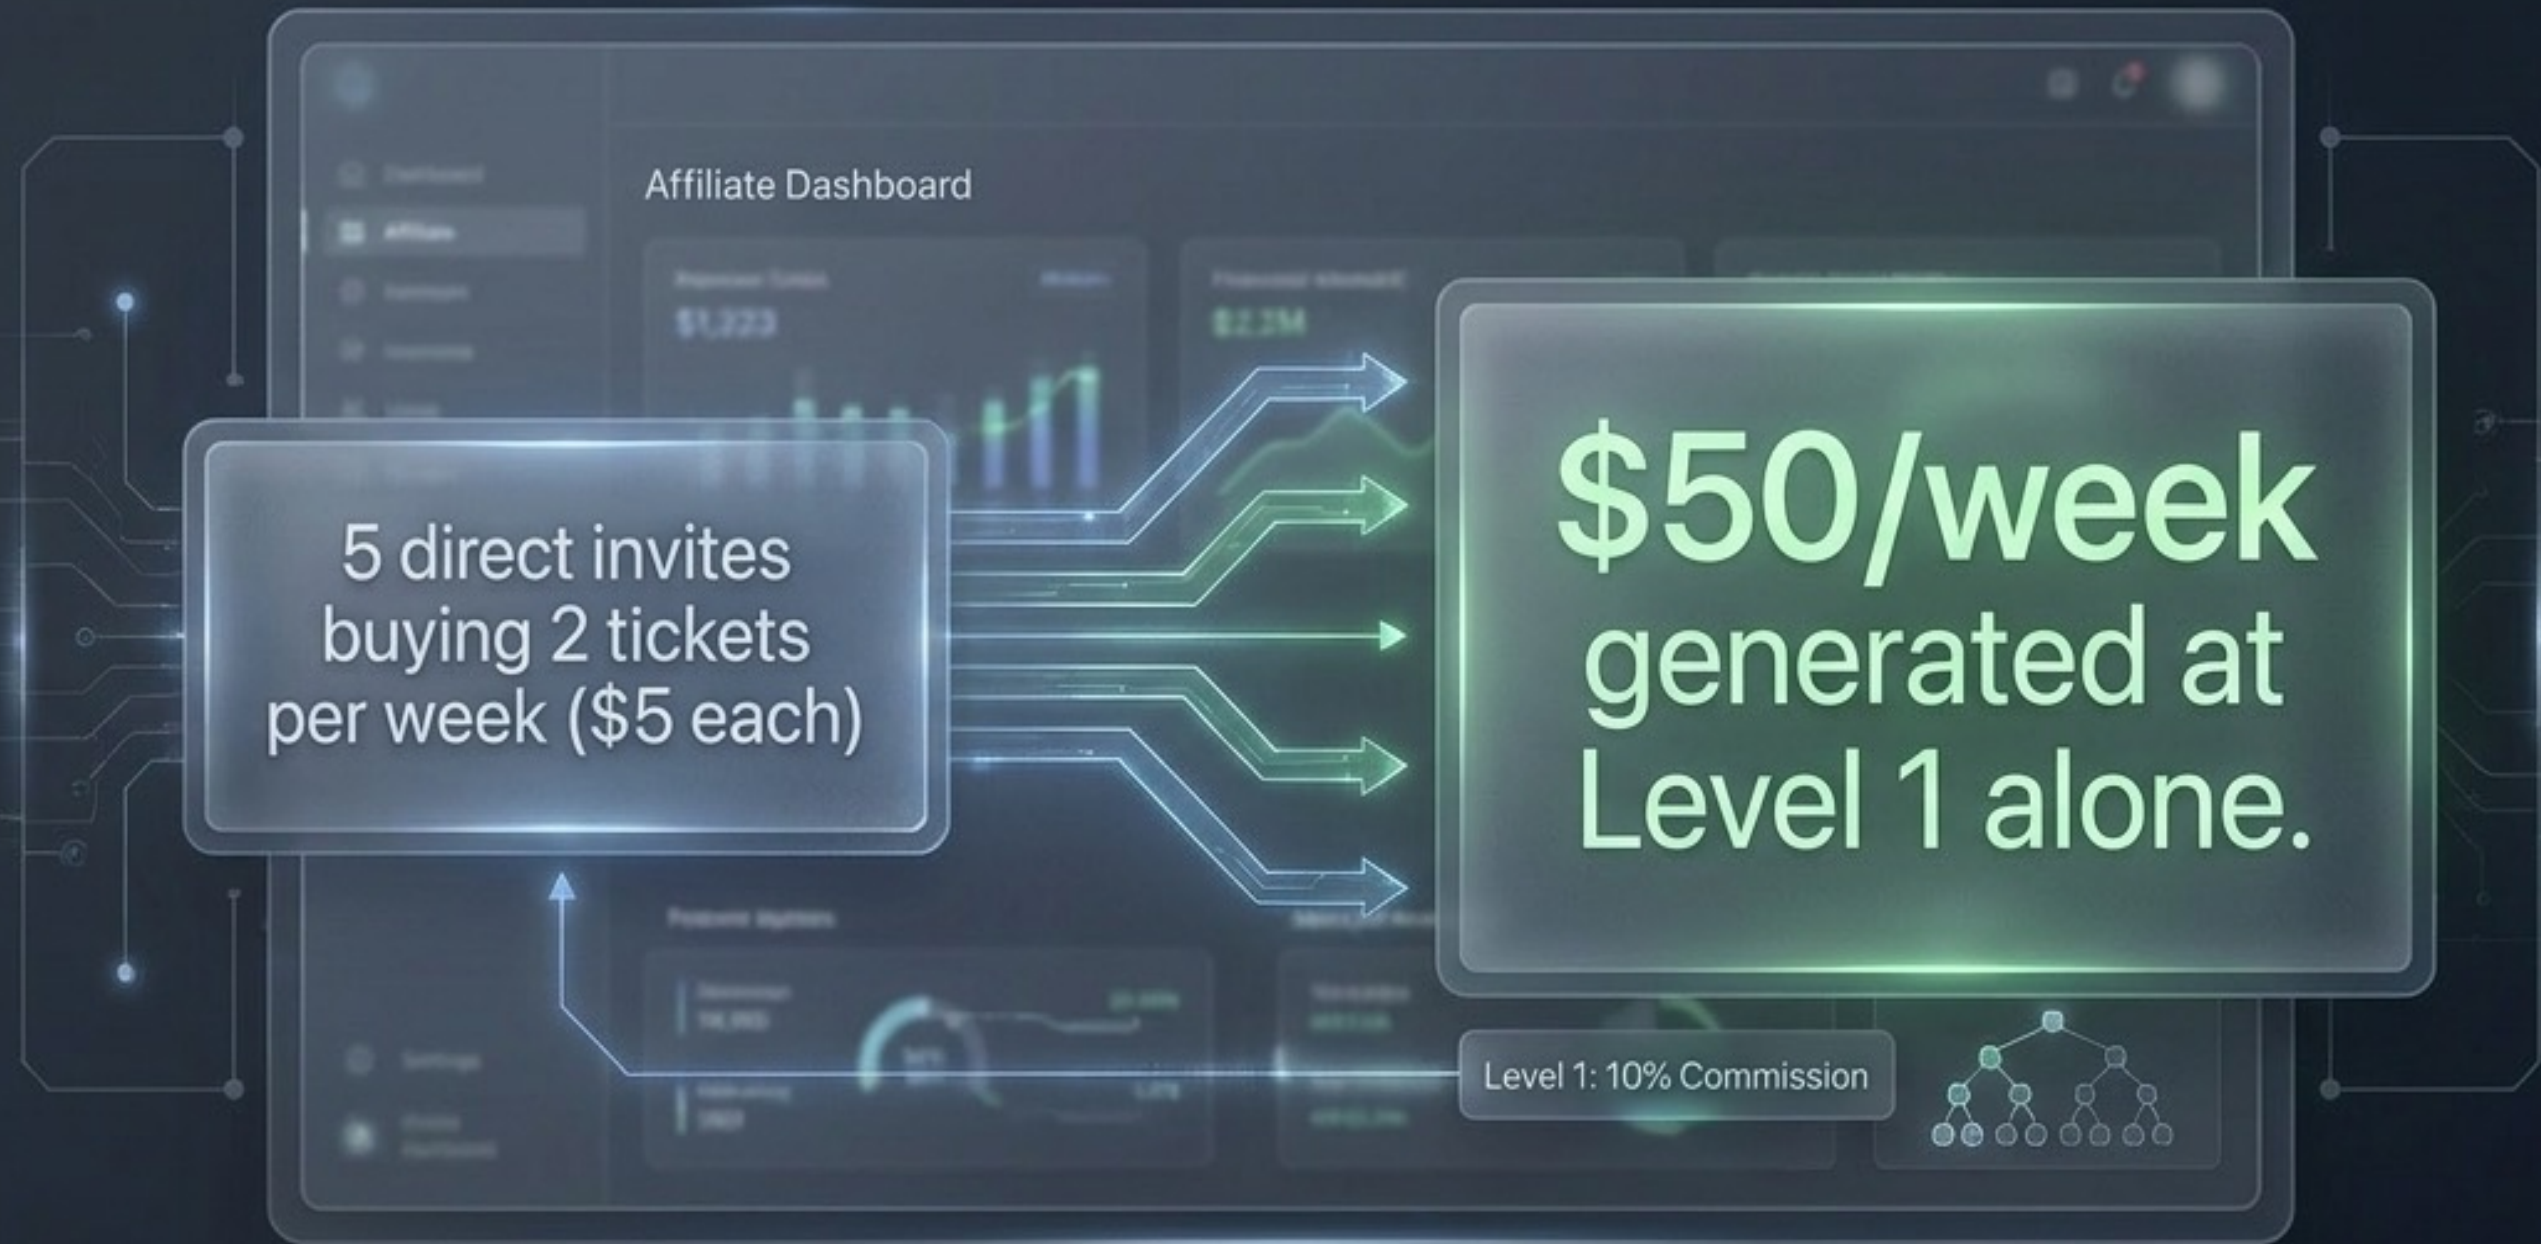

FAIR PLAY
RULE

Smart contract constraints protect the system from drainers.

Scalable commissions derived from active participant volume.

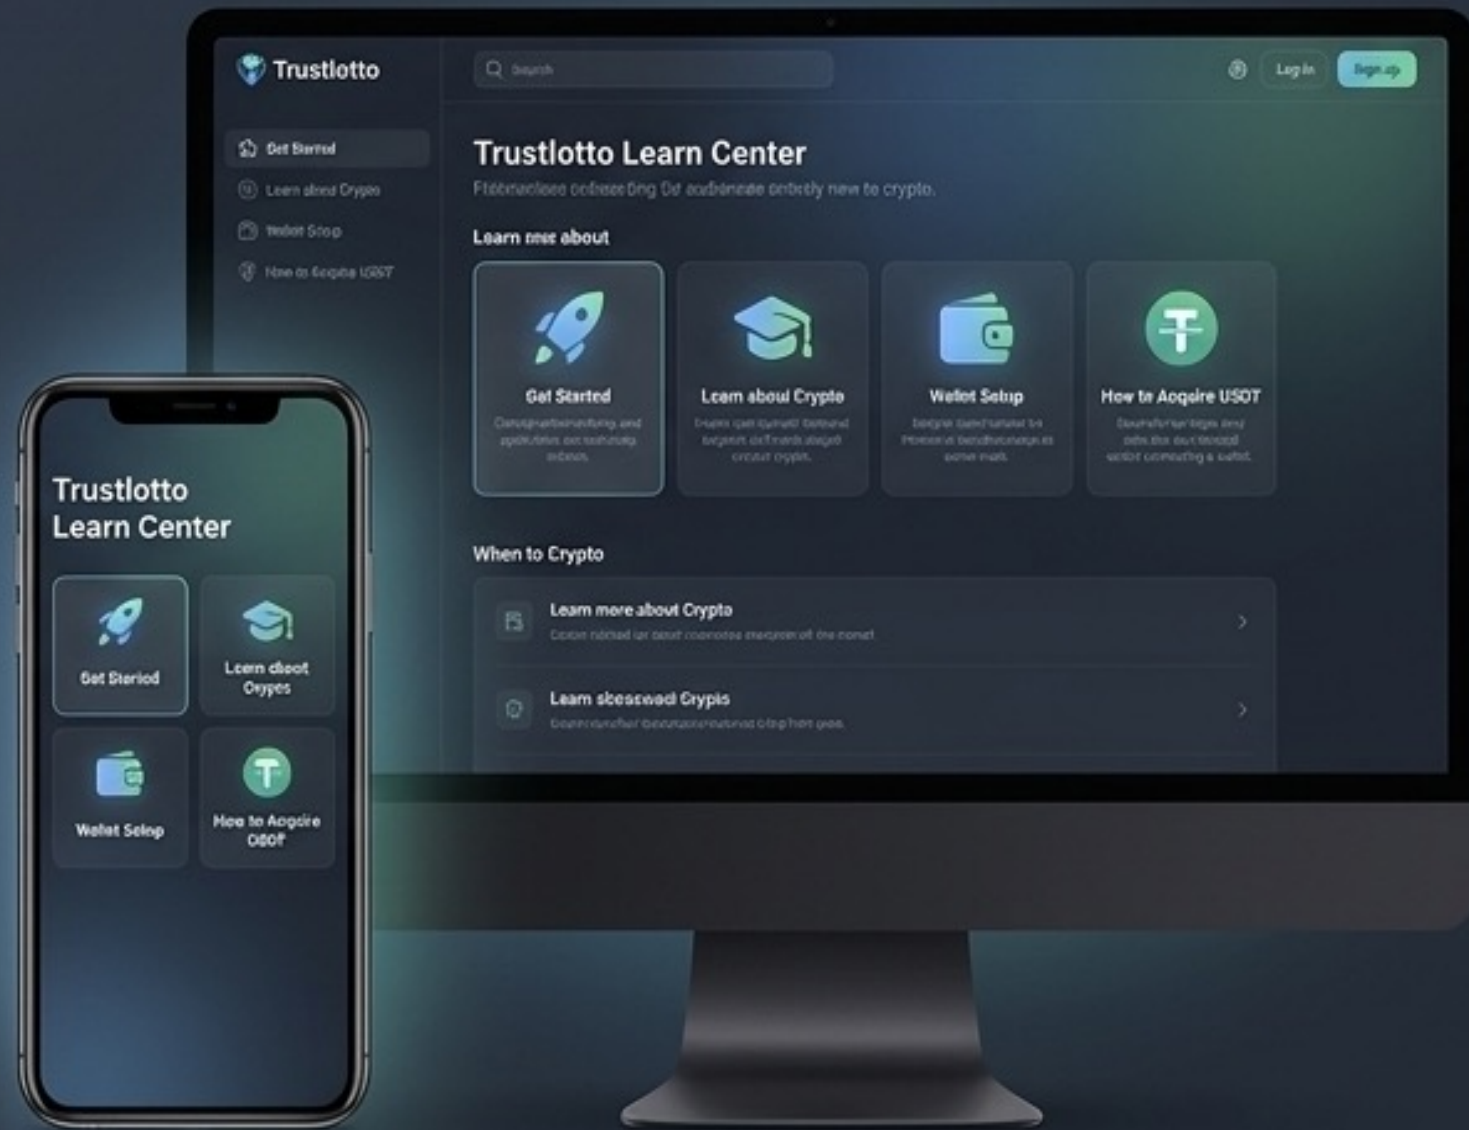

Illustrative example only. The protocol never guarantees income. Earnings are strictly a mathematical output of active network participation.

Fairness isn't a feature—it is the core operating system.

You shouldn't have to trust
Trustlotto. You should be
able to **check** it.

Frictionless onboarding for audiences entirely new to crypto.

Affiliates do not need to become crypto tech-support.

The integrated Learn Center bridges the knowledge gap, guiding Web2 users seamlessly through acquiring USDT and connecting a wallet.

✓ FAIR PLAY RULE

Sustainable promotion requires strict compliance with protocol reality.

Deploy your network in four immediate steps.
